- Problem resolution
- Teamwork
- Continuous learning

PROFILE

Highly motivated Front-end developer passionate about creating attractive and functional web experiences. With solid knowledge in modern web technologies, as well as experience in developing solutions with PHP and MySQL, and creating dynamic sites using WordPress. Committed to continuous learning and constant improvement to stay up to date with the latest trends in web development.

EXPERIENCE

WordPress Developer, 2023–Present

Project description

Developed a complete eCommerce platform for a retail client using WordPress as the main CMS. The project involved the creation of a robust and attractive virtual store, incorporating advanced functionalities and a highly interactive design.

Key Responsibilities and Achievements:

- **Theme Customization:** I adapted an existing WordPress theme to meet the client's specific requirements, ensuring a unique and attractive design that reflected the brand identity.
- **WooCommerce Integration:** Implemented and configured the WooCommerce extension to manage product catalogs, checkout processes, and inventory tracking efficiently.
- **Responsive Design:** Ensured the store was fully responsive, offering a seamless shopping experience on mobile, tablet and desktop devices.

Educational Project: Body Mass Index (BMI) Calculator 2021–2022

Project description

I developed a Body Mass Index (BMI) calculator as an educational project to apply my programming and database knowledge in a practical context related to health and well-being.

AchievementsKey Features:

- **Real-Time BMI Calculation:** Implemented precise algorithms to calculate BMI in real-time based on height and weight provided by the user.
- **Database to Store Results:** I designed and configured a database to store the results of the BMI calculation, allowing users to review their measurement history.
- **Friendly User Interface:** I developed an intuitive user interface that makes it easy to enter data and view results.

LANGUAJES

- Spanish Native
- English: Level A1 (Self-taught in progress)
