

HAZEL CHÁVEZ ALVARADO

Full Stack Web Developer · MEVN Stack (MongoDB, Express, Vue.js, Node.js)

Guanacaste, Costa Rica | hazelchavez56@gmail.com | +506 8552-0126 | [linkedin.com/in/hazel-chavez-alvarado](https://www.linkedin.com/in/hazel-chavez-alvarado) | github.com/hazel-chavez | portafolio-hazel-chavez.vercel.app

PROFESSIONAL SUMMARY

Full Stack Web Developer with hands-on experience building and deploying production applications on the MEVN stack, including REST APIs, JWT authentication, and role-based access control. Proven track record delivering custom WordPress/WooCommerce solutions for international clients on Upwork, with real-time search features and conversion-focused UX. Comfortable managing projects independently from requirements through deployment, with technical English (B1) for client communication.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), Vue.js 3, HTML5, CSS3, Bootstrap 5, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Role-Based Access Control, Mongoose

Databases: MongoDB, MySQL, SQL

Tools & Platforms: Git, GitHub, VS Code, Vercel, Render, WordPress, WooCommerce, Elementor, ACF, GitHub Copilot

PROFESSIONAL EXPERIENCE

Freelance WordPress Developer — Upwork (Remote)

2025 – 2026

- Delivered a casino review platform for an international client, building the visual identity, branding, and functional content from scratch.
- Built a dynamic real-time search engine with JavaScript and ACF, enabling content filtering without page reload.
- Managed technical communication entirely in English (B1): requirements gathering, revisions, and final delivery with a remote client.

TECHNICAL PROJECTS

School Management System — Full Stack

Node.js, Express, MongoDB, Bootstrap 5, REST API, JWT | Apr 2026 – Present

- Built a production full-stack app with JWT authentication and role-based access control (admin/guest) to manage users, schools, grades, and learning materials.
- Designed a modular architecture with Express and Mongoose; responsive UI with Bootstrap 5, deployed on Render.

Phone Inventory System — Frontend SPA

Vue 3, Vite, JavaScript, CSS3, Bootstrap | 2026

- Deployed a single-page application on Vercel with frontend authentication, full CRUD operations, real-time search, and role-protected navigation.

Tech E-commerce Website — WordPress

WordPress, WooCommerce, Elementor, MySQL, PHP, SEO | 2022

- Built a fully operational online store with WooCommerce: product catalog, event calendar, and WhatsApp integration for direct customer support.
- Designed a custom, conversion-focused layout with Elementor and applied basic SEO optimization from the start.

EDUCATION

Associate Degree in Software Development — Universidad Cenfotec, San José, Costa Rica | Jul 2025

Web Development Bootcamp — Alura ONE Next Education (Remote) | Jun 2023

Associate Degree in Front-End Development — Instituto Nacional de Aprendizaje, Guanacaste | Jul 2022
